Pay All ATM

“Supporting your financial needs!”

TARGET MARKET:

- Supermarkets
- Malls and Airports

FEATURES:

- Touch screen
- Versatile Software
- Modern Design

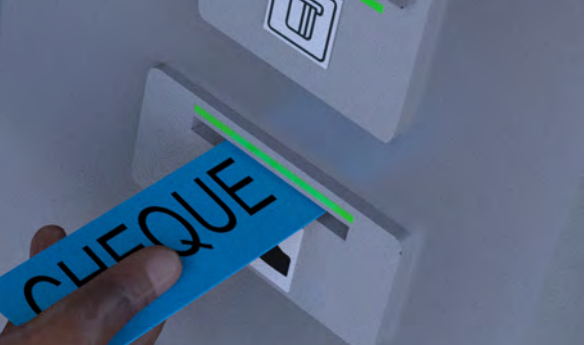

PATENT INFORMATION:

Patent pending.

SUMMARY:

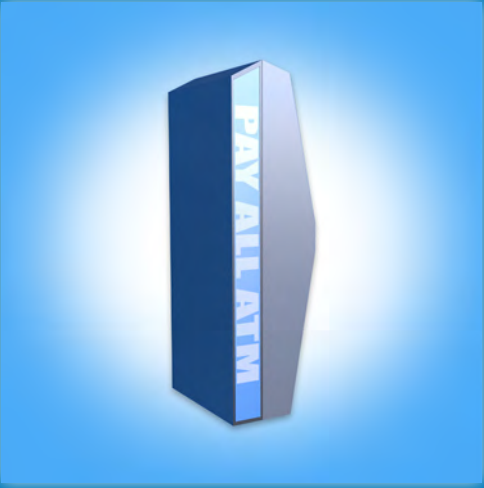

Pay All ATM is a software application that works as a stand alone kiosk in stores, malls and other venues that may have an existing ATM machine.

It is also a phone application that can be accessed conveniently with the same wide array of options. Bill payment and other scheduled payments can be securely pre-set and linked to the user’s card. So many people are unable to gain checking accounts through financial institutions for numerous reasons. **Pay All ATM** provides a profitable solution.

While an existing ATM system can accept deposits and dispense cash, Pay All ATM can do so much more! This software accepts cash, checks, money orders, traveler’s checks, as well as dispenses cash. The options are limitless. Just think of the possibilities. 42

Ticket Master, Sporting Events, Concerts, Lottery Tickets, Utility Bills, Cell Phone Bills, Car Payments, Insurance Payments, Load Prepaid Cards, MoneyGram / Western Union, Money Orders, Stamps, Court, Fees or Child Support, Credit Card payments, Gift or Restaurant Cards, Movie Tickets, Travel and so much more. The opportunities are endless!

Touch Screen.

About the Developers

Kamaria Morrow from Florissant, MO, had an idea for a better way to pay bills and much more with a card and Kiosk and phone application. Kamaria contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that she may see success with this great idea and turn it into a real product. She is actively seeking a company that would have an interest in licensing the product for a royalty. Working with Mars Rising Network, this essential new design concept was refined and prepared to be presented as a commercial product. He actively seeking a company that would have an interest in partnering with him to get this patent pending product into the marketplace.
