FaceBoss™

Introducing

FaceBoss™

“The ultimate beach shade”

TARGET MARKET:

- Beach-goers everywhere.
- Anyone who wants a light, easy to carry solution for keeping the sun off their face while sunbathing.

FEATURES:

- Lightweight, portable complete with beach bag carry case.
- Easily adjustable and quick set-up.
- Built-in clear pocket for viewing tablets and other devices.
- 2 additional pockets for sunglasses and magazines

PATENT INFORMATION

A provisional and design patent application has been filed as of November 2017. The patent search was performed by The Mars Rising Network. It was concluded that there is nothing similar to this product on the market, which means this unique product could be patented and used by outdoor enthusiasts everywhere.

SUMMARY

FaceBoss™ is a new sun shielding device developed for sunbathing at the beach without the glaring sun in your face. This allows you to comfortably read, view devices and easily see your immediate surroundings while being

shielded from the sun.

Faceboss™ face shade comes complete with beach bag carry case that is helpful for mothers with small children. It can carry food, extra towels, toys, sunscreen and other important items. Once at the beach, Faceboss™ setup is quick and easy with its light-weight hinged steel frame and customizable cover options. Simply unfold and insert into the two vertical curved bars into the sand. The top shade can be adjusted from zero to 180 degrees and the included pillow can be filled with sand for the perfect fit.

The pocket on the upper half has a clear plastic face. This allows hands free use of mobile devices. The user may read, watch movies, or browse social media hands free, while also being protected from the sun. Additionally, in the evening, the top may be adjusted into a vertical position for viewing of movies on your tablets or other devices.

Currently there is no alternative to this useful device. A simple scan of the beach shows many people with towels or books over their faces as only way to keep the sun off of them.

Once it is time to leave, Faceboss™ quickly folds up for easy storage in its beach bag carry case.

FaceBoss™ is also advertising friendly with its two broad areas that lends itself well to sports graphics, toy licensing, and advertising.

FaceBoss™ truly is the ultimate beach face shade.

About the Inventor

The inventor, Craige Nygrin of Round Top, TX had a solution for beach-goers that struggle with the keeping the sun off their face. Craige contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that he may see success with this great idea and turn it into a real product. He is actively seeking an investor, manufacturer or company that would have an interest in licensing the product.
