Pup's Poopy Pouch

“Carrying the bag is a thing of the past”

TARGET MARKET:

- Anyone who needs to walk their pet outside.

FEATURES:

- Easily closed pouch that carries and hides the dog's plastic waste bag.
- Velco™ strap on back quickly attaches to any leash, collar or harness.
- Made of washable soft/pliable material, similar to a “koozie”, which is waterproof and easy to wash out if needed.

PATENT INFORMATION

A provisional and design patent application has been filed as of February 2018. The patent search was performed by The Mars Rising Network. It was concluded that there is nothing similar to this product on the market, which means this unique device can be patented and marketed worldwide. It is extremely inexpensive to make, market and purchase.

SUMMARY

The dog owner will attach the pouch to the desired location on the leash, collar, or harness before the walk. **Pup's Poopy Pouch**

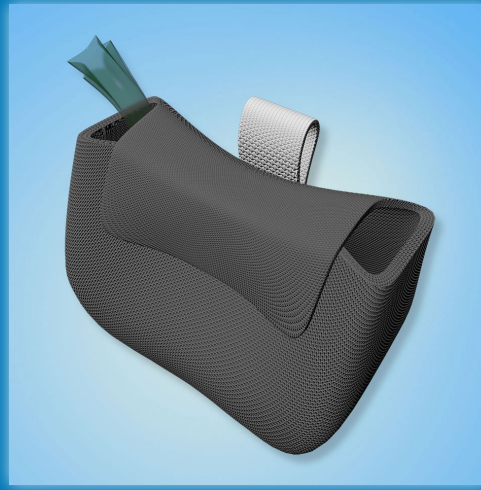

is a soft pliable pouch meant to hold dogs plastic waste bag. This will allow the dogs owner freedom from carrying the plastic bag which will give back the joy of walking your pet. Once the waste is picked up, the plastic waste bag is put into the pouch with a lid that folds over and is secured by Velcro-type strips built into the bag.

Each side of the lid has a small opening which allows for the portion of the dogs waste bag that you are holding to hang out of the pouch for easy use and removal.

The Pouch removes the dog owner of the responsibility of having to carry the waste bag during the walk. Carrying the dog waste is often a dreaded situation for many people and this is evident by the amount of dog waste that is left behind by people at the site. The poopy pouch relieves them of this stressful situation.

No longer do you need to risk a fine for leaving the bag of waste. Just drop the plastic waste bag in the pouch and not think about it again until you arrive at home and dispose of the waste.

Puppy's Poopy Pouch comes in many color and sizes appropriate for any size dog.

Easily attaches to the leash, collar, or harness

About the Developer

The inventor, Jean Irene Duniyak of Raleigh, NC had an idea to avoid the unpleasantness of having to carry the dog waste bag when walking your dog. Jean contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that she may see success with this great idea and turn it into a real product. She is actively seeking a company that would have an interest in licensing the product for a royalty.
